

Help insulate yourself from mold problems.

VaporWick® Pipe Insulation — Your solution to condensation management. VaporWick insulation is specially designed to manage condensed water from below-ambient-temperature pipe systems. This helps prevent mold growth and reduces water staining which can affect building appearance. More importantly, insulation is kept dry, improving thermal performance. Finally, VaporWick meets GREENGUARD Children & Schools Certification requirements. For more information, visit www.owenscorning.com/vaporwick or call 1-800-GET-PINK.
